CANADA'S WONDERLAND TAKES TORONTO FOR AN EPIC RIDE!

Canada's Wonderland unveils its newest attraction, with a life-like Superboard Spectacular located in the heart of Toronto. The new "Yukon Striker" was flawlessly illustrated with a 2D extension that provided high-visibility to drivers travelling along the Gardiner Expressway.

The 2D extension made of wood, was carved into the shape of the roller coaster's cab and then wrapped in flex-vinyl to perfectly depict the world's fastest, tallest, and longest roller coaster.
